

EDUCATION

University of California, Berkeley — MEng in EECS · GPA: 4.0/4.0	2026
<i>Focus: Data Science & Machine Learning · Fung Excellence Scholar</i>	<i>Berkeley, CA</i>
- Fall: Optimization Models in Engineering (A+), Intro to Machine Learning (A+), Statistical Learning Theory (A) - Spring: Deep Reinforcement Learning (Levine), Introduction to Robotics · Capstone with Prof. Grigas (IEOR), presented before the EECS Industry Advisory Board	
Bocconi University — First-Level Master in Marketing & Communication	2025
<i>110/110 cum laude · Ranked first in the cohort · Merit-Based Scholarship</i>	<i>Milan, Italy</i>
Quantitative program: analytics, consumer behavior, pricing strategy, data-informed decision-making	
Politecnico di Torino — BSc in Electronic & Communications Engineering	2021
<i>110/110 cum laude · Top of class · English-taught honors track (top 200 students)</i>	<i>Turin, Italy</i>
Thesis: <i>Digital PLL Simulation</i> — system-level phase-locked loop modeling in MATLAB/Simulink	

RESEARCH PROJECTS & PUBLICATIONS

HydraMARL: Isolating the Parameter-Sharing Spectrum in Multi-Agent RL	2026
<i>Holzinger, R.* & Colletti, R.* — NeurIPS 2026, under review</i>	
Architectural framework spanning the spectrum between full parameter sharing and full agent independence via a single continuous parameter; systematic experiments on the VMAS benchmark suite	
KLip-PPO: A per-sample KL perspective on PPO-Clip	2026
<i>Colletti, R.* & Holzinger, R.* — arXiv:2606.23932 · klip-ppo.org</i>	
Proves the PPO-Clip surrogate gradient is exactly a per-sample, state-dependent KL penalty; validated on MuJoCo continuous-control benchmarks	
Drift Happens: Neural Architecture Robustness to Temporal Distribution Shift	2026
<i>Holzinger, R.*, Colletti, R.* & Remmerie, A. — QCDS @ ECML-PKDD 2026, under review · *equal contr.</i>	
Empirical study across vision and text domains showing in-distribution accuracy does not predict drift robustness	
PRISM: Predict-then-optimize courier dispatch under shifting operating conditions	2026
<i>MEng thesis, advisor Prof. Grigas (IEOR) — presented before the EECS Industry Advisory Board</i>	

EXPERIENCE

Lenovo — Marketing Specialist, CRM Digital Services	Jan 2025 – Jul 2025
<i>CRM & Marketing Analytics</i>	<i>Milan, Italy</i>
Drove customer segmentation and campaign analysis across global markets, collaborating with cross-functional stakeholders to turn CRM data into go-to-market and customer strategy decisions	
Rialco S.R.L. — CEO / Product Manager / Growth Manager	2021 – 2025
<i>Digital consulting firm</i>	<i>Milan, Italy</i>
Owned strategic direction and P&L, coordinating external developers, designers, and marketing partners to deliver web, e-commerce, and growth solutions to SMB clients — from product discovery to delivery	
Biesse Sistemi S.R.L. — Intern	Jan 2020 – Jul 2020
<i>Software Development</i>	<i>Nizza Monferrato, Italy</i>
Developed a voice-controlled application for automated taxi booking (application logic, system integration)	

SCHOLARSHIPS & AWARDS

Fung Excellence Scholarship — Berkeley Engineering, awarded to top MEng candidates	2025
Merit-Based Scholarship — Bocconi University, ranked first in the cohort	2024
Intraprendenti Young Talents Program — Politecnico di Torino, top 200 students university-wide	2017–2021

ABOUT ME

Skills: Python, C/C++, MATLAB · PyTorch, scikit-learn, NumPy, pandas · RL: PPO, GRPO, DQN, SAC, CQL implemented from scratch; Gymnasium, stable-baselines3, MuJoCo, VMAS · ROS 2, OpenCV · CVXPY, Weights & Biases, Git

Languages: Italian (native), English (fluent — IELTS 8.0/9), French (elementary)

Interests: Padel (professional athlete, Top 200 Italy) · OFTAL volunteer since 2010, Transport Coordinator
